

## THISTLE RESOURCES CORP. ANNOUNCES

### Signs Agreement with EarthEX Geophysical Solutions Inc (MB)

**\*\*\*\*\* FOR IMMEDIATE RELEASE \*\*\*\*\***

**BATHURST, New Brunswick, Canada – (Monday September 14th, 2020)**

Thistle Resources Corp. ("TRC" or the "Company") is pleased to announce its new partnership with EarthEx Geophysical Solutions Inc. (EarthEx), a geophysical consulting firm based in Selkirk, Manitoba, Canada. EarthEx specializes in the analysis, interpretation, 3D modelling and acquisition of data from Electromagnetic (EM), Induced Polarization (IP), Magnetic, VTEM and Gravity surveys.

With proprietary equipment and new technology, EarthEx has previously demonstrated their ability to identify new mineralization within the Bathurst Mining Camp, including a new silver trend, the discovery hole intersecting 19 meters assaying 36.53 g/t Ag, 0.52% Pb and 0.38% Zn. This partnership will not only confirm & enhance our present targets prior to drilling in Q4 2020 and Q1 2021, it will also increase our exploration opportunities and success rate as new targets are generated.

Geophysical prospecting, data integration and analysis by EarthEx will incorporate all geological, geochemical and geophysical elements into a project model with prioritized target zones, resulting in "Target Definition" for Hard Rock Minerals. The final product will characterize specific targets within the larger trends, all prioritized with recommendations for additional work if required prior to drilling. Ideally, collar coordinates for drilling will be provided.

*"We are pleased to have EarthEX join our Technical Team. Utilizing new geophysical prospecting technology, incorporating multi-element data sets, their "new" industry cutting-edge technologies and data analysis methodology, EarthEX will enhance Middle River Gold's existing mineralized gold zone and help define the under-explored parallel SIP Zone. EarthEX technologies and expert analysis within the geology of the Bathurst Mining Camp, will lead to a successful Fall 2020 Diamond Drill Program, thus further increasing our shareholder value " stated **Patrick J Cruickshank, President & CEO, Thistle Resources Corp.***

**Daniel Card, President & Chief GeoPhysicist, (EarthEX).**, “ We are excited to be working with Thistle Resources Corp on their Middle River Gold deposit. This project shows great potential for enhancement & additional discoveries and we believe our focus on detail, expertise in modern technologies and pragmatic, results-driven approach to geophysical prospecting will help Thistle Resources Corp. to quickly detect, delineate and discover their next deposit.

Thistle Resources Corp. (TRC) is a private Canadian Junior Exploration Company focused on Gold-VMS exploration opportunities in the famous Bathurst Mining Camp (BMC) in Bathurst, New Brunswick.
