

THISTLE RESOURCES CORP. ANNOUNCES

The Acquisition of 15 km² of Property @ Middle River Project

***** FOR IMMEDIATE RELEASE *****

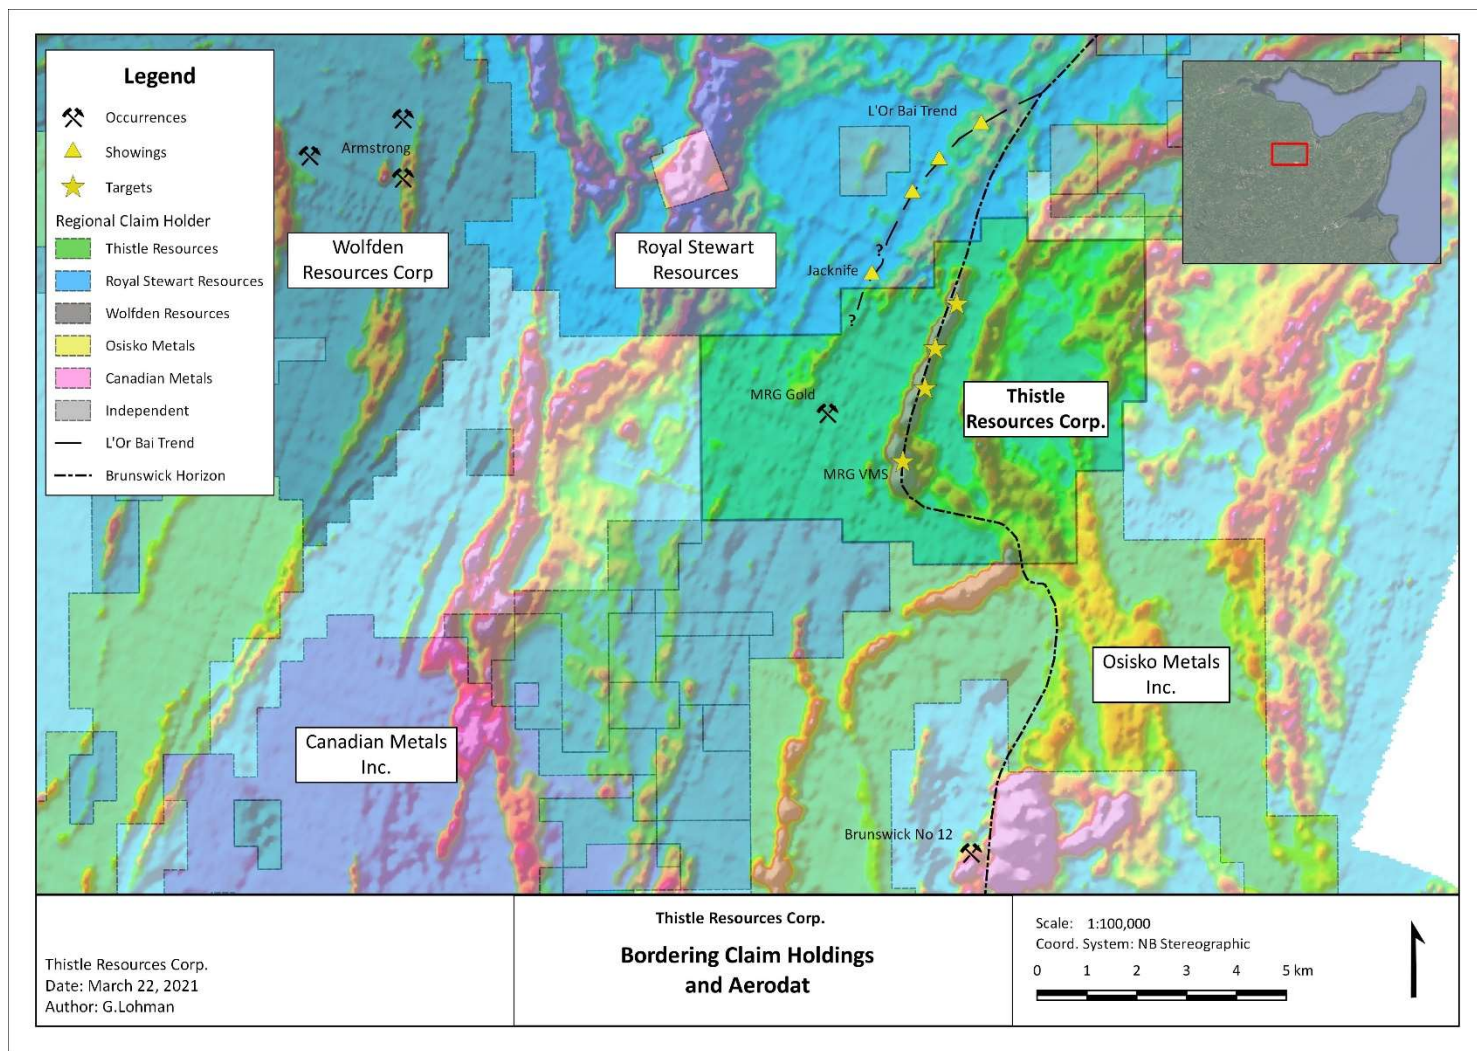

BATHURST, New Brunswick, Canada – (Thursday April 15th, 2021)

Thistle Resources Corp. ("TRC" or the "Company") is pleased to announce the acquisition of 67 claim units (14.6 km²) along the eastern boundary of the Middle River Project. The claims (#9866 & #9936) were acquired to cover prospective geology, impacted by the newly discovered "Brunswick Horizon", extending north from the World Class "Brunswick # 12" Mine and the "Brunswick #6" Mine. Deposits along the Brunswick Horizon appear to be spatially separated by approximately 8 - 10 kilometers with local variations due to extensive folding. The Middle River VMS Project reflects that characteristic, with defined geophysical conductors indicative of VMS mineralization located 8 kilometers to the north of the World Class Brunswick #12 Mine.

Immediately following the acquisition of the new claims, EarthEx commenced data analysis and will incorporate the data results into the overall Middle River Gold-VMS 3D-AI Model, providing the company with a regional view to assist in target prioritization and drilling.

“The acquisition of these claims provides additional exploration opportunity in this unexplored portion of the BMC. With the recent data analysis by EarthEX indicating VMS potential along the Brunswick Horizon, the company is optimistic that additional geophysical targets will be identified for follow up in 2021” stated G. Lohman, P.Geo., COO”.

“We are pleased to increase our Target Area and Footprint in the BMC. We anxiously await the additional 3D & Artificial Intelligence Analysis from EarthEX Geophysical Solutions on these new properties and incorporate the results into the overall Project View. ” stated Patrick J Cruickshank, President & CEO, Thistle Resources Corp.

Thistle Resources Corp. (TRC) is a private Canadian Junior Exploration Company focused on Gold-VMS exploration opportunities in the famous Bathurst Mining Camp (BMC) in Bathurst, New Brunswick.
